To: Organizations invited to participate in the Libya Energy & Economic Summit

Re: Endorsement of Libya Energy & Economic Summit 2021 event

To Whom It May Concern;

The Office of the Prime Minister is happy to announce that the Libya Energy & Economic Summit 2021 will take place in Tripoli later this year. This event is organized by Energy Capital & Power and promises to bring new investors and capital to Libyan projects at this critical moment in our nation's re-emergence.

The Libya Energy & Economic Summit 2021 is a testament to our drive and ambition to bring massive investment into projects that will create economic growth, employment and capacity building in the country. The event prioritizes oil, gas and power, since these sectors have a great impact on all activities in the economy, but it covers investment in all initiatives in all sectors, and we urge all businesses active in Libya or considering entering this market to participate.

This investment summit will proudly display the best of Libya's energy resources and areas for investment in energy and related sectors, with the goal of bringing more FDI into the country and encouraging greater private sector activity within Libya.

We kindly request that your organization meet with the team of Energy Capital & Power and that you sponsor the event, so that we may ensure the success of this highly strategic initiative, highlight our nation's greatest opportunities, and show the changing face of Libya to the world.

Yours sincerely,

Dr Zuhir A. Mahmud

Chief of Staff

Prime Minister Office
